About Us

We utilize a cutting edge and patent pending process that accomplishes complete, hassle free, & profitable Estate Sales.

~

We travel to the location, document & take pictures of everything you wish to sale, place it on our website for buyers to view and bid on, then conduct a LIVE video broadcast auction from your location to finalize the sale of the items. Successful buyers log in and pay for their items, then are emailed exact pickup information. All items remain on site until the scheduled pickup time and the location remains private until they pay for their items.

~

We are growing rapidly and have an increasingly large reach to buyers looking for specialty items in an Estate that traditional Estate sellers do not have.

~

We strive for exceptional service and look forward to assisting you with your Estate Sale.
